

## A taste of 2016 Trending Colours

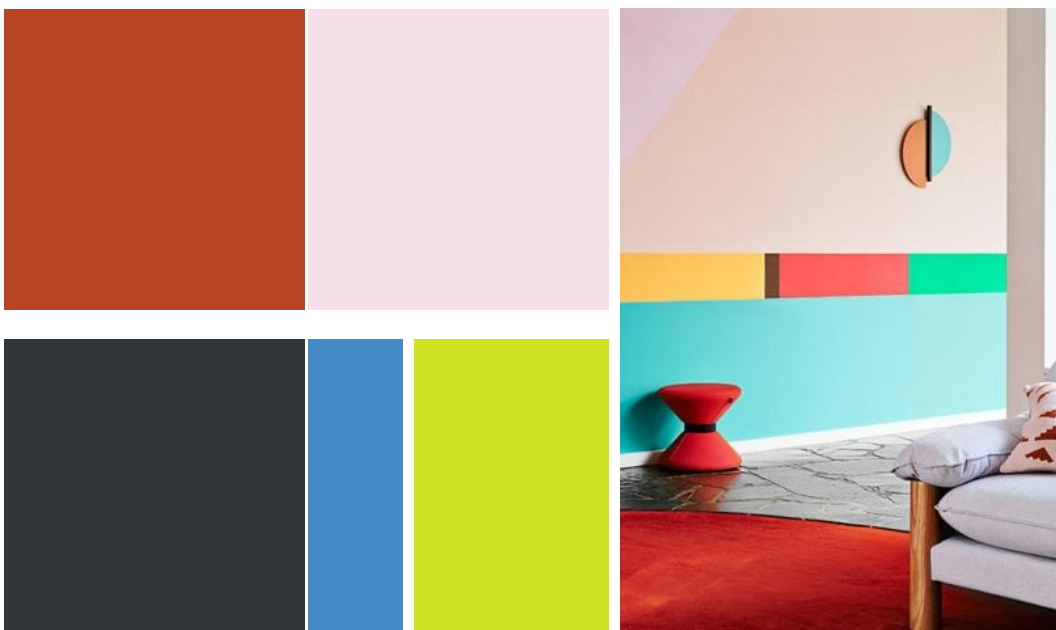

### Lux – Rich Hues

Rich royal greens, chocolate browns and maroon, deep aqua blues offset with antique metallic's and old world textiles and timbers.

### Retro with a Modern twist

A take off of 50's through to 70's – oranges, taupes, soft pinks and mustards contrasted with hip accents of sharp blues, neon greens, hot pinks and Inky greys.

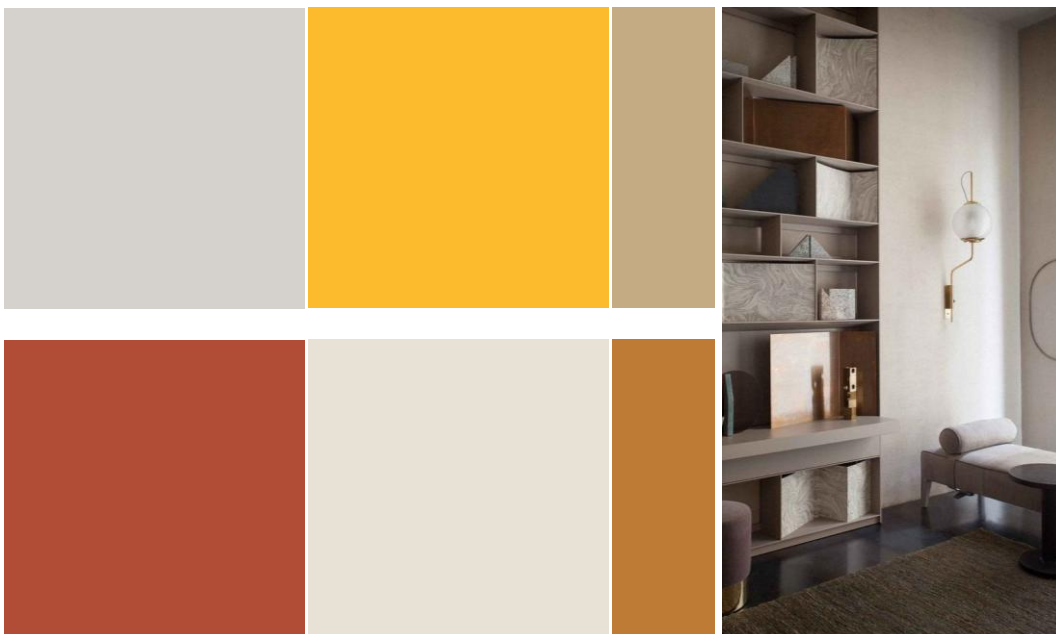

## Naturals

Delicate hues of blushing pinks, milky blues, purple tinted greys, sandy ochres inspired by the subtleties of nature and the soft gradations of colour, 2016 style guides use these colours in a systematic and structured way giving a very textural palette.

## Neutral Gold's

Ochres, yellow and tans, brass, copper and gold combine with hessian greys and linen whites to provide warm, comfortable combinations.
